atmosfair

Certificate

for reducing greenhouse gas emissions

Prof. Dr. Anja Leist
has saved **10,120 kg** of CO₂ greenhouse gases
related to conference air travel of the research group
on Dec 21, 2023.

What does your climate protection contribution accomplish?

With your climate protection contribution in the amount of 233.00 Euro, you are supporting the following projects:

Senegal: Renewable Electricity from Solar Systems

With your contribution Senegalese households can be supplied with clean solar energy throughout the year.

India: Efficient Wood Gas Stoves

Your contribution reduces CO₂ emissions and enables families in India to cook smoke-free.

Mali: Rural Electrification

With your contribution, more villages in Mali can be electrified and supplied with green electricity for the first time.

atmosfair operates its projects according to the Clean Development Mechanism (CDM) outlined in the Kyoto Protocol as well as the "Gold Standard" established by international environmental organisations. Independent organisations approved by the United Nations (e.g., TÜV) audit the projects' actual CO₂ reductions.

With your climate contribution (no compensation) you support the development and expansion of renewable energies in developing countries. The emission reductions are credited to the project countries.
